**Subject:** Support for Velella Epsilon project permit

Hello Meghan,

I writing to show my support for the Velella Epsilon project. I'd like to see the project move forward as soon as possible. I have no connection to the operator. I have developed an interest in aquaculture after exploring sustainable alternatives to wild fishing as we continue to experience declines in fisheries. The data around the health of fish and ocean ecosystems is vital and this pilot program will allow us, the consumers to better understand the impacts of marine aquaculture.
